MUSTARD SEED FOUNDATION'S

ENTREPRENEURSHIP

WEBINAR

REASON FOR THE WEBINAR

We at Mustard Seed Foundation, strongly believe that early self-awareness leads to effective career and life choices. We have also realised that entrepreneurship is introduced at a later stage in life and is mostly presented as a solution to unemployment which we believe promotes the stigma that it is a get rich quick scheme. Mustard seed trusts that entrepreneurship should receive more exposure as is a great part of the economy

We have realised that young people attain skills and knowledge only for them to be part of the unemployment statistic. We want to educate and empower, with the assistance of entrepreneurs, on how to attain business skills to create employment for the youth through skill transfer.
